

**Preliminary Programme Overview**  
Monday, October 17, 2016

Room	A	D Voting Room	B	C	E1	E2 Voting Room	F1	F2	G	K	M	1.61/1.62	N1	N2	L7	L8	1.86	Scientific Centre (Hall X4)			Level 1																	
																		E-Poster Lounge 1	E-Poster Lounge 2	Hotspot																		
07:00-08:00 Industry Sponsored Symposia																																						
08:00-10:00	Opening Session: Part 1																																					
10:30-12:00	Opening Session: Part 2																				Posters in the Spotlight	Posters in the Spotlight	Free Paper															
12:00-14:00 Lunch Break	RTD* 12:45-13:45 How to use FODMAPs and other diets in your clinical practice?										RTD* 12:45-13:45 Colonoscopic surveillance strategies		RTD* 12:45-13:45 Optimal management of gastric cardia cancers		RTD* 12:45-13:45 Bacterial infections in end stage liver disease		13:45 Poster Champ Award Ceremony	12:00-14:00 Poster Sessions		Symposium 12:15-13:15 Moving GI education into the future: Current challenges, future needs																		
14:00-15:30	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Free Paper Session	Free Paper Session	Free Paper	Translational/Basic Science	TSTM*	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session																	
	Best of DDW	Management of bloating and flatulence	Therapy update: Therapeutic EUS – New indications	Endoscopy performance measures: What you should be doing	Improving the adenoma detection rate	Management of oesophageal motility disorders	Japanese European perspectives: Endoscopic classifications update	Liver diseases beyond alcohol, fatty liver and viral hepatitis	Free Paper Session	Free Paper Session	Late Breaking Abstracts I	IBD: The role of different cell types in the inflammatory process	Free Paper	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session																	
15:45-17:15	Symposium	Symposium	Symposium	Free Paper Session	Symposium	Symposium	Symposium	Symposium	Symposium	Free Paper Session	Free Paper	Translational/Basic Science	TSTM*	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Symposium																	
	Rome IV: New diagnostic criteria for functional GI disorders	Update on viral hepatitis 2016	Therapy update: Transluminal endoscopy in the upper GI tract – From bench to clinical practice	Free Paper Session	Non-bleeding emergencies of the oesophagus	Interventional ultrasound: See what you do!	Autoimmune pancreatobiliary disease	Endoscopy meets pathology: Polyps and polyposis syndromes in the upper GI tract	Management of early rectal tumours	Free Paper Session	Late Breaking Abstracts II	Novel models for GI diseases	Can a test pick up early inflammatory GI disease?	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Horizon 2020																	
17:45-19:15 Industry Sponsored Symposia																																						

\* RTD – Round Table Discussions / TSTM – Today's Science; Tomorrow's Medicine

The scientific programme is as of March 1, 2016

**Preliminary Programme Overview**  
 Tuesday, October 18, 2016

Room	A	D Voting Room	B	C	E1	E2 Voting Room	F1	F2	G	K	M	1.61/1.62	N1	N2	L7	L8	1.86	Scientific Centre (Hall X4)			Level 1
																		E-Poster Lounge 1	E-Poster Lounge 2	Hotspot	
07:00-08:00 Industry Sponsored Symposia																					
08:30-10:00	Live endoscopy	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium					Translational/ Basic Science	TSTM*							Symposium
		Intestinal and extra-intestinal cancers in IBD	<b>Therapy update:</b> Functional upper GI syndromes	Challenging situations in diagnosis and treatment of acute pancreatitis	Management of GI and liver diseases during pregnancy	Management of Barrett's oesophagus: The gold standard	Quality in ERCP: It is how you do it that counts	Advanced pancreato-biliary imaging	Free Paper Session	Free Paper Session	Free Paper Session			Liver fibrosis: From mechanism to therapy	TSTM: Free paper	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	
10:30-12:00	Live endoscopy	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium		Symposium				Translational/ Basic Science	TSTM*							Free Paper
		Does my patient really have GORD?	<b>Therapy update:</b> Constipation	IBD in young people	Prevention and early diagnosis of pancreatic cancer	From guidelines to clinical practice: Portal hypertensive bleeding	Colon cancer: More than one disease?	Free Paper Session	Detection and management of serrated lesions of the colorectum	Free Paper Session	Free Paper Session			Structural changes in functional GI disorders: Time to remove the term „functional“?	Bringing molecular tests to GI cancer clinics	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	
12:00-14:00 Lunch Break											RTD* 12:45-13:45	RTD* 12:45-13:45					12:00-14:00 Poster Sessions	Symposium 12:15-13:15			
											Multidisciplinary treatment of IBS patients with comorbidities	Challenges in ERCP						13:45 Poster Champ Award Ceremony	Drug development for digestive diseases: From clinical needs to regulatory perspectives		
14:00-15:30	Live endoscopy	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium		Free Paper	Translational/ Basic Science	TSTM*								Symposium
		From guidelines to clinical practice: Complex IBD cases	<b>Therapy update:</b> Colon cancer	National Societies Symposia: Case finding strategies and access to hep C therapy across Europe	Liver nodules in different clinical situations	Endoscopic treatment of complications after upper GI surgery	What to do with small colorectal polyps?	Functional GI symptoms in organic diseases	Improving early diagnosis of upper GI cancer	Free Paper Session	Hot topics in pancreatology	Intestinal microbiota in health and disease	New tests for treatment stratification in GI cancer	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	
15:45-17:15	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium			Translational/ Basic Science	TSTM*								Free Paper
		Management of refractory Crohn's disease	From guidelines to clinical practice: <i>H. pylori</i>	<b>Therapy Update:</b> Challenges in biliary stone management	Resection and ablation of early neoplastic Barrett's: What is the best approach?	Visualising small bowel diseases	National Societies Symposia: Optimising clinical trials by networking – LINKing up Europe	Coeliac disease for the clinician	NAFLD-NASH: Where are we going?	East meets West: Same disease, different clinical patterns	Rectal cancer: Organ preserving strategies	Free Paper Session	Mitochondria and the digestive system	New diagnostic and therapeutic tools in GI diseases: Gimics or adding value	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session		
17:45-19:15 Industry Sponsored Symposia																					

\* RTD – Round Table Discussions / TSTM – Today's Science; Tomorrow's Medicine

**Preliminary Programme Overview**  
**Wednesday, October 19, 2016**

																	Scientific Centre (Hall X4)			Level 1		
Room	D	E1	E2 Voting Room	F1	F2	G	K	M	1.61/1.62	N1	N2	L7	L8	1.86	-2.32/-2.33	E-Poster Lounge 1	E-Poster Lounge 2	Hotspot	HANDS-ON IN AUG WEEK			
07:00-08:00 Industry Sponsored Symposia																						
08:30-10:00	Advances in Clinical GI & Hepatology	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Free Paper Session	Translational/Basic Science	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	09:00-10:00	Posters in the Spotlight	Posters in the Spotlight	Symposium	ESGE Learning Area	Surgical Learning Area	Ultrasound Learning Area
	New treatment targets in IBD	Improving outcomes of non-variceal upper GI bleeding	The role of food in IBS and other functional GI disorders	Standards and novel developments for pancreatic neuroendocrine tumours	Percutaneous gastrostomy and jejunostomy	New trends in gastric cancer	Drug induced liver injury: What is new?		Injury and Regeneration										Eosinophilic oesophagitis: Overlooked too often or searched for too fanatically?			
10:30-12:00	Advances in Clinical GI & Hepatology	Video Case Session	Symposium	Symposium	Symposium	Symposium	Symposium	Free Paper Session	Translational/Basic Science	Symposium	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	Free Paper Session	10:30-12:00	Posters in the Spotlight	Posters in the Spotlight	Free Paper	ESGE Learning Area	Surgical Learning Area	Ultrasound Learning Area
	What is success in treating IBD?		Current management of bile duct tumours	Surgery meets endoscopy in the colon	Non-coeliac gluten sensitivity and wheat allergy in the gut	National Societies Symposia: Oesophageal cancer across Europe	The patient with severely disturbed GI function: Optimal management in 2016		Immunotherapy in cancer	Complications of liver cirrhosis: Beyond bleeding and ascites									Abstracts on Fire			
12:00-14:00 Lunch Break									RTD* 12:45-13:45	RTD* 12:45-13:45						12:00-14:00	13:45 Poster Champ Award Ceremony	12:00-14:00 Poster Sessions	Symposium 12:15-13:15	ESGE Learning Area	Surgical Learning Area	Ultrasound Learning Area
									Multidisciplinary management of perianal fistula	Management of obscure GI bleeding	Dyspepsia: Differential diagnoses and management strategies	Steroids for acute alcoholic hepatitis: Cure or curse?	A survivors guide for a happy and successful career in Gastroenterology - Hosted by women in GI									
14:00-15:30	Advances in Clinical GI & Hepatology	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium		Symposium	Symposium	Symposium									ESGE Learning Area	Surgical Learning Area	Ultrasound Learning Area
	Optimal use of immunosuppressants and anti-TNF in IBD	Hepatology: What's new in 2016	New technologies in endoscopy: What's new in 2016?	Pancreatology: What's new in 2016?	Food-related disorders: What's new in 2016?	Neurogastroenterology and motility: What's new in 2016?	Gut microbiota: What's new in 2016?		Oesophageal diseases: What's new in 2016?	Benign colorectal diseases: What's new in 2016?	Colorectal cancer: What's new in 2016?
